"THE WHANG DOODLE MOURN'S"

Lecturers: Pop, Keitt and Jeffries at Bush River—Nightingale, Mr. Jeffries, Deals in Ancient History.

The cool weather and excessive rains have damaged the cotton crop considerably; so there will be a short crop with us in this section.

Cotton picking has been begun by a few though very little is open yet.

Revs. Mann and McElure have been holding a series of meetings at Dominick school house with good results. Several joined the Methodist and several the Presbyterian churches. The people at this place need a church and there should be one built as it is very inconvenient to get to church now.

This winter in company with a few others went to Bush River on the 2nd to see and hear the "whang doodle mourn" for its first born; that is, to hear the Alliance speakers. Dr. Pope came in late driving a mule that was pretty well broke down and looked like some merchant had a lien on him and the old clodpoppers demands had been unheeded. Dr. Pope was the first speaker and I thought it was a very conservative speech; of course he was in favor of the sub-treasury.

Mr. Keitt was next; he was long and he labored hard to convince his hearers in favor of the Alliance demands, but if he said anything new about them he could not catch on to it. He was questioned a good deal and held his own very well. When asked something about Gen. Butler his reply was rather evasive with a very positive inference.

Mr. Jeffries was the last speaker; he did not look like he could speak, but he fooled a fellow; he got there pretty well and he had rather too much to say about the ancient history and foreign nations for us poor farmers to understand him.

Mr. Jeffries said that the demand for lecturers all over the State was so great that he could not get in to fill the calls, and that it took one day in every week to say no to the calls he got.

There was a small turn out, only about 25 men and boys with not a single lady on the grounds. One lady was speaking early but she said she was not a politician and that she would leave. Everything was quiet, in fact too quiet to be enjoyed.

A Difference? The Herald and News heard the following dialogue a few days ago between an Edgfield man and a Newberry man, and as it is rather too expressive to be lost, we give it here for the edification of our readers. It is hard to down an Edgfield man:

Newberry man (in search of light and fairness): "You heard J. Billie at Prosperity, and Col. Tommie at Batesburg. How did they differ in developing the plan?"

Edgfield man (willing to die rather than use a simple word): "J. William and Col. Tommie are both immense geologists, but I opine that J. William is, if possible, a little more plexiform, while the Colonel is a little more of a diaphragm—so to speak."

The Newberry man gave it up and is still cogitating the plan in his inner soul and wondering what it really is.

Confirmed. The favorable impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of figs a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers the California Fig Syrup Company.

FRESH NORFOLK OYSTERS! I will open my restaurant for the season, Friday, Sept. 18th, at my old stand. Call and get the first Oysters of the season.

S. B. JONES.

Who are Entitled to Vote? The Herald and News has been requested to issue a notice to the effect that the election for the support of the Graded Schools to be held to-day. The impression seems to prevail among some that only real estate owners are entitled to vote. The fact is that the schools say on this point, after giving some information in regard to the election, "at which election the qualified voters of said district shall vote for or against the assessment and levy of a tax to be used for the purpose of supporting the school year, commencing on the first day of November following, which shall not exceed the sum of two mills on the dollar in any one year." We do not understand "qualified voters" in this connection to mean only real estate owners, but any one who is entitled to vote under the laws of the State and lives within the corporate limits of the town of Newberry.

The Colored Teachers. The Colored Teachers Institute for Newberry County opened Monday morning under the supervision of Prof. E. Wallace and Mrs. J. E. Wallace. The work began by a few chosen remarks from Mr. Arthur Kibler, our worthy School Commissioner.

There were twenty-three teachers enrolled. The first subject brought before the teachers was "School management," which demanded the earnest attention of all.

"Number lessons," by Mrs. Wallace, was just fine and the teachers took unusual interest therein.

Prof. Wallace introduced as the next topic "How to teach division." This topic had a tendency to draw out the teachers and evoked quite a discussion.

Tuesday found the work of the Institute growing in interest, and the roll swelled to thirty-seven. The teachers were then asked to illustrate their way of teaching fractions to children. They all felt that we will be better able to grapple with this "Mogul" when we return to our work.

Mrs. Wallace fully illustrated the word and phonic method. Tuesday evening found an intelligent audience at the Presbyterian church. Programme—select reading, Misses Lilla Campbell and Dora Rutherford. Essay—better method of teaching, Miss Lilla Burton. General discussion.

Wednesday, presented by Messrs. William G. W. Hubbard and Singleton. Prof. Wallace entertained us logically and pleasantly for quite awhile on the above subject.

"MORE ANON." September 16, 1891.

St. Luke's Dots.

Mr. Geo. S. Merchant is building a diningroom to his house.

Mr. E. C. Curdson, of Georgia, is visiting in this vicinity.

Miss Lillie Lester has returned from a visit to Edgfield County.

The joint alliance meeting of St. Luke's, Utopia, Saluda, O'Neill and Fairview alliances at St. Luke's last Thursday was well attended. In the morning, speeches were made by Rev. J. K. Jeffries and District Lecturer Keitt. In the afternoon, State Lecturer, Mr. J. K. Jeffries, spoke at considerable length. The speeches were all in defense of the same line of thought—defense of the sub-treasury scheme, and especially of the sub-treasury scheme. It is useless to give anything like a synopsis of the lectures, as nothing new was brought out—nothing more than has been said in many respects. The rainy day of the past week have injured cotton to some extent. It is now the general opinion that the cotton crop of this part of the county will fall short of what it was last year. The corn is good. Saluda and Bush Rivers and tributaries have been full during the past week, but did not overflow the banks enough to injure corn but little. While it is not worth while to speak of every little wrong in a community, still when a thing is carried beyond the bounds of reason it should be frowned down and condemned. There is often too much lethargy in endeavoring to remedy evil, and especially in remedying the evils of young men, for the sooner their wrong actions are criticised and corrected the better it will be for them and for the community in which they live. While our community is second to none in many respects, it must confess that some of the young men of the community are not what they should be—whose highest ambition is to engage in the frivolities of life, and, urged by jealousy, endeavor to pull down the virtuous and respectable young men of the community on a level with themselves. And when one has the manhood to shun their society, so as to avoid their bad influence and seeing that he cannot be brought into their way of doing, they set their tongues wagging on slander and backbiting—they often keep their tongues wagging upon the plea that one has the "big bug" because he shuns the company. But one who has conceptions of what constitutes true young manhood will not be deterred from the way of right to retain the friendship of an ignorant, envious, and malicious man. But few specimens of humanity have little enough sense to suppose that perversion of the truth will amount to aught, as truth will in the end triumph. Then the sphere of slanders move in. It is usually very limited, and a respectable person cares nothing for what a selfish, foulmouthed set thinks of him—he can get along just as well without their friendship as with it. On the other hand, the community has young men of whom it may well be proud—some of whom have already made their mark in the world; who have been rewarded with honor and distinction for their adherence to virtuous principles—some who do not waste their time and means by indulging in the frivolities of life, but enjoy their time and means in the endeavor to better themselves and be of benefit to themselves and to their fellowmen—some by seeking education. Both Newberry College and Clemson Agricultural College at the next sessions will have representatives from this community.

Is It True? To the Editor of The Herald and News: Is J. William Stokes a fair minded man?

It was in the fall of a few days ago, and had a conversation with one of the directors of the Oconee News. The director told me that J. William Stokes, of the Cotton Plant, refused to exchange with the Oconee News, because the Oconee News was an Alliance paper and had taken some subscribers from the Cotton Plant. The Oconee News is owned by the Alliance and a board of directors for the paper was elected by the Alliance from its members.

Is J. William Stokes a fair minded man and one who the people would select to lead them in a great undertaking? OCCASIONAL.
